**Newmarket-Tay Power Distribution Ltd.**

## **JOB POSTING APPRENTICE POWERLINE TECHNICIAN**

Newmarket-Tay Power Distribution Ltd. delivers power with pride to almost 50,000 customers within the Town of Newmarket, Town of Midland and Tay Township. Our Newmarket Operations Centre is located in Newmarket in the northern GTA within the Region of York. Our Midland-Tay Operations Centre is approximately one hour north of Newmarket along the shores of Georgian Bay.

We are seeking an Apprentice Powerline Technician for our Newmarket Operations Centre who will support our ongoing commitment to anticipate and meet our customers' changing needs.

The successful candidate will report to the General Foreperson and work under the direction of the Line Trades Foreperson or Line Trades Supervisor to whom he/she will be assigned, as well as work with linecrews in the construction and maintenance of overhead and underground distribution systems up to and including 44kV. Temporary assignment may be required from time to time to the Midland-Tay Operations Centre in Midland with resulting changes in reporting relationships.

Applicants will be required to enroll in and work towards the completion of a Lineperson Certification Program. This includes successfully completing the hours and academic training requirements for certification as established by Newmarket -Tay Power Distribution Ltd. Applicants must obtain a Class "DZ" driver's license and maintain it.

Applicants must also meet all requirements of the position including regular on call assignments outside of regular business hours when qualified to do so. The successful candidate must also reside, or relocate to reside within a 40km radius of the Newmarket Operations Centre.

Compliance with all safety requirements in the workplace as well as all policies and procedures of the Corporation will be mandatory.

Compensation and benefits are as per the Collective Agreement.

The successful candidate will have the following minimum qualifications essential to the position:

### **QUALIFICATIONS:**

1. Successful completion of a post-secondary Powerline Technician Diploma or equivalent.
2. Must have a valid driver's licence and a clean abstract.
3. Excellent attendance record.
4. Must have an excellent safety record, and continually demonstrate safe working habits and mechanical aptitude.
5. Must continually demonstrate a high regard for personal and public safety.
6. Proven ability to work effectively and safely in a team setting and follow instructions from supervisors and peers.
7. Must have good communication skills both oral and written, including ability to maintain log books and other records as required with computer aided devices.
8. Good interpersonal skills, especially in dealing with customers.
9. Must be physically able to work outdoors in all weather conditions. May be required to undergo a job demands assessment.
